CAUTION.

NOTICES TO MARINERS.

FOREIGN-GOING SHIPS. Half-yearly books of Notices to Mariners for Foreign-going Vessels, containing General Notices of Special importance, together with Hydrographic and Wireless information received during the past six months and still in force, are published on the 1st June and 1st December.

On the first day of all other months a Monthly Summary of Notices is published containing information received during the previous month.

On or about the 7th, 14th and 22nd of each month, supplements are published containing information received subsequent to the issue of the last Monthly Summary.

Copies of these Notices are supplied at all Mercantile Marine Offices in the United Kingdom to Masters, free of charge.

Copies of the half-yearly books and Monthly Summaries are also sent to the Government Shipping Offices at Dominion, Indian and Colonial Ports, and to the British Consulate at Foreign Ports, for the inspection of Mariners who may not be in possession of the latest Summary.

HOME TRADE AND FISHING VESSELS.—Half-yearly books of Notices to Mariners for Home Trade and Fishing Vessels, containing general Notices of Special Importance, together with Hydrographic and Wireless information received during the past two months and still in force, are published on the 16th June and 16th December.

On the 16th day of all other months a Monthly Summary of Notices is published containing information received during the previous month.

On or about the 23rd, 30th and 8th of each month Supplements are published containing information received subsequent to the issue of the last Monthly Summary.

Copies of these Notices are supplied at all Mercantile Marine Offices and Custom Houses in the United Kingdom to Masters and Owners, free of charge.

NAVIGATIONAL WARNINGS.—In addition to the above, Navigational Warnings of an urgent nature are broadcast by wireless and telegraphed by the Board of Trade to Custom Houses, Pilotage and Harbour Authorities and others, throughout Great Britain and Northern Ireland. A list of the Wireless Stations from which, and the times at which, the Warnings are broadcast and also a list of the addresses at the various ports at which these Warnings are available for the information of Masters, is published in the half-yearly editions of the Notices to Mariners.

Masters are recommended to ascertain at the latest possible moment before sailing whether any dangers affecting their route have been notified and to arrange wherever possible for the W.T. operators to listen in at the hour prior to the time of sailing at which this information is broadcast.

If these Notices are disregarded by Masters, Owners and Agents of ships, the responsibility rests with the parties who neglect to make use of information gratuitously offered and abundantly circulated.

NOTICES TO WIRELESS TELEGRAPH OPERATORS.—Notices to Wireless Telegraph Operators are issued to Masters, who are responsible for the supply of these Notices to the Wireless Operators. These notices are issued when required, not necessarily at regular intervals. They can be obtained free of charge from any Mercantile Marine Office or Custom House, where they are retained for six months, after which application for missing or back numbers should be made to the Principal Examiner of Masters and Mates, Mercantile Marine Department, Board of Trade, 20, Great Smith Street, London, S.W.1.

Wireless Operators should see that a complete file of current Notices is kept in the Wireless Office, and should ask the Master to procure copies of any missing numbers.

Notice to Shipowners and Agents.

INCORRECT CHARTS.

The attention of the Board of Trade has frequently been called to cases in which British vessels have been endangered or wrecked through Masters attempting to navigate them by means of antiquated or otherwise defective Charts.

The Board of Trade desire, therefore, to direct the especial attention of Ship owners and their Servants and Agents to the necessity of seeing that the Charts taken or sent on board their Ships are corrected down to the time of sailing. Neglect to supply a Ship with proper Charts will be brought prominently before the Court of Inquiry in the event of a wreck occurring from that cause.
